Ode to a Grandmother, by a third-grader

"A grandmother is a lady who has no children of her own. She likes other people's little girls and boys. A grandfather is a man grandmother. He goes for walks with the boys, and they talk about fishing and stuff like that.

Grandmothers don't have to do anything except to be there. They're old so they shouldn't play hard or run. It is enough if they drive us to the market where the pretend horse is, and have a lot of dimes ready. Or if they take us for walks they should slow down past things like pretty leaves and caterpillars. They should never say, "Hurry up."

Usually grandmothers are fat, but not too fat to tie your shoes. They wear glasses and funny underwear. They can take their teeth and gums off.

Grandmothers don't have to be smart, only answer questions like, "Why isn't God married?" and "How come dogs chase cats?"

Grandmothers don't talk baby talk like visitors do, because it is hard to understand. When they read to us they don't skip, or mind if it is the same story over again.

Everyone should try to have a grandmother, especially if you don't have television, because they are the only grown-ups who have time."

THE POWER OF ONE

I am only one,
But still I am one.
I cannot do everything,
But still I can do something;
And because I cannot do everything
I will not refuse to do
the *something* that I can do.
